Environmental Ethics The Central Issues

Gregory Bassham

Environmental Ethics provides an accessible, lively, and up-to-date introduction to the central issues and controversies in environmental ethics. Requiring no previous knowledge of philosophy or ethical theory, the book will be of interest to students, environmental scientists, environmental policy makers, and anyone curious to know what philosophers are saying today about the urgent environmental challenges we face.

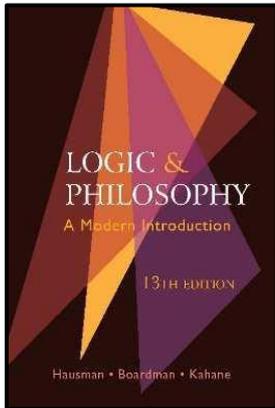

The book is divided into two parts. Part One deals with theoretical issues in environmental philosophy, examining a variety of ethical and environmental theories that provide diverse and thought-provoking perspectives on critical ecological issues. Part Two turns to applied environmental ethics, addressing current debates on topics such as climate change, biodiversity loss, wilderness preservation, responsibilities to future generations, population growth, overconsumption, food ethics, and ecological activism.

Reviews: "This is a wonderful text! It is clear, comprehensive, and balanced. The Current Issues sections are extremely well-researched while remaining very accessible, making them valuable to students and professionals alike. I'll use this book."

Logic and Philosophy A Modern Introduction

Howard Kahane, Alan Hausman, Frank Boardman

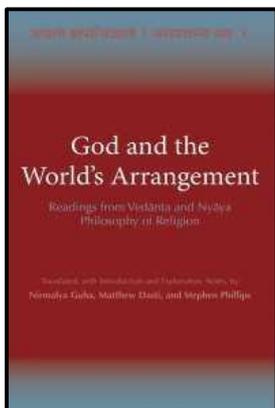

A comprehensive introduction to formal logic, *Logic and Philosophy: A Modern Introduction* is a rigorous yet accessible text, appropriate for students encountering the subject for the first time. Abundant, carefully crafted exercise sets accompanied by a clear, engaging exposition build to an exploration of sentential logic, first-order predicate logic, the theory of descriptions, identity, relations, set theory, modal logic, and Aristotelian logic. And as its title suggests, *Logic and Philosophy* is devoted not only to logic but also to the philosophical debates that led to the development of the field.

Much new material has been added for the 13th edition. An introduction to set theory and its relationship to logic and mathematics, including philosophical issues, is now part of Chapter 13. Chapter 15 is an introduction to modal logic and Kripke semantics, concluding with a discussion of philosophical problems with any logical accommodation of modalities. Instructors who do not wish to present proof methods will find chapters on truth trees for both sentential and first-order logic, and a presentation of trees for modal logic.

Special features of this text include presentations of the history of logic, alternatives to traditional methods of conditional and indirect proof, and a discussion of semantic problems with universal and existential instantiations. Throughout, the authors are sensitive to philosophical issues that arise from the relationship between ordinary language, symbolic logic, and justifications for the syntax and semantics of the various symbolic languages. Discussions range from the justification of the truth table for the sentential rendering of *if . . . then* statements to semantic and syntactic paradoxes, including some troubling paradoxes that arise in ordinary language (e.g., the so-called hangman or surprise quiz paradox).

Logic and Philosophy includes ample material for a one-semester or two-semester course and provides a thorough preparation for more advanced logic courses.

God and the World's Arrangement Readings from Vedanta and Nyaya Philosophy of Religion

Nirmalya Guha, Matthew Dasti, Stephen Phillips

The work of three present-day Sankritist-philosophers, *God and the World's Arrangement* allows readers to engage directly with writings of the classical Indian philosophers Śaṅkara and Vācaspati, as well as some of their most acute critics, on the question of whether the existence of a creator God can be known by reason alone. Carefully selected and annotated with the needs of students foremost in mind, these new translations will be of interest to anyone wishing to see up close a newly set gem of our philosophical inheritance from global antiquity.

About the Author: Nirmalya Guha is Associate Professor, Department of Humanistic Studies, Indian Institute of Technology (BHU), Varanasi, India.

Matthew Dasti is Professor of Philosophy, Bridgewater State University.

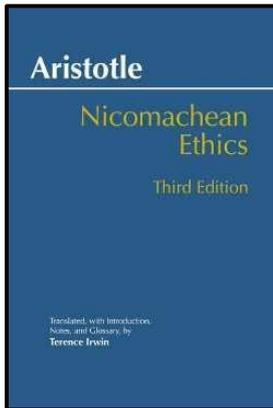

Stephen Phillips is Professor of Philosophy and Asian Studies, The University of Texas at Austin.

Reviews: "Students and scholars should welcome this outstanding translation and commentary. Offering core passages of Nyāya and Vedānta in accessible English will expand the horizon of contemporary philosophy of religion and make more evident the often-overlooked elements of natural theology in non-Western philosophy."

Nicomachean Ethics

Aristotle Translated by Terence Irwin

Terence Irwin's edition of the *Nicomachean Ethics* offers more aids to the reader than are found in any modern English translation. It includes an Introduction, headings to help the reader follow the argument, explanatory notes on difficult or important passages, and a full glossary explaining Aristotle's technical terms.

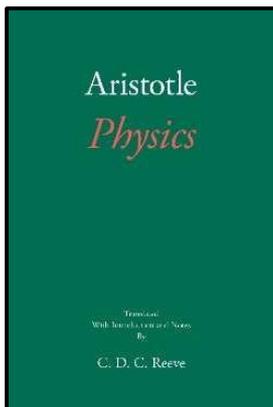

The Third Edition offers additional revisions of the translation as well as revised and expanded versions of the notes, glossary, and Introduction. Also new is an appendix featuring translated selections from related texts of Aristotle.

About the Author: Terence Irwin is Emeritus Professor of Ancient Philosophy, University of Oxford.

Reviews: "This refreshingly contemporary translation of Bywater's text . . . is admirably successful in its stated aim of being 'clear and explicit enough to show how Aristotle's argument proceeds, in general and in detail, and at the same time literal enough to show what grounds the text offers for different lines of interpretation'. It uses current English idiom and style with skill throughout, incorporating smoothly the more traditional renderings of technical terms, and will serve a timely and important purpose in making Aristotle's *Ethics* attractive and enlightening to new readers."

Physics

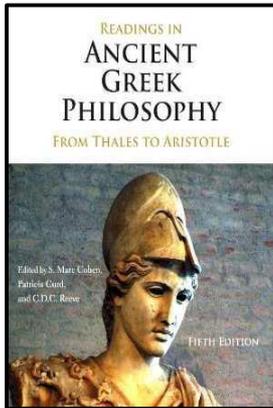

Aristotle, C. D. C. Reeve

The *Physics* is a foundational work of western philosophy, and the crucial one for understanding Aristotle's views on matter, form, essence, causation, movement, space, and time. This richly annotated, scrupulously accurate, and consistent translation makes it available to a contemporary English reader as no other does—in part because it fits together seamlessly with other closely associated works in the New Hackett Aristotle series, such as the *Metaphysics*, *De Anima*, and forthcoming *De Caelo* and *On Coming to Be and Passing Away*. Eventually the series will include all of Aristotle's works.

Sequentially numbered endnotes provide the information most needed at each juncture, while a detailed Index of Terms indicates places where focused discussion of key notions occurs. An illuminating general Introduction describes the book that lies ahead, explaining what sort of work it is and what sorts of evidence it relies on.

Readings in Ancient Greek Philosophy From Thales to Aristotle

Edited by S. Marc Cohen, Patricia Curd, C. D. C. Reeve

Soon after its publication, *Readings in Ancient Greek Philosophy* was hailed as the favorite to become "the 'standard' text for survey courses in ancient philosophy."* More than twenty years later that prediction has been borne out: *Readings in Ancient Greek Philosophy* still stands as the leading anthology of its kind. It is now stronger than ever:

The Fifth Edition of *Readings in Ancient Greek Philosophy* features a completely revised Aristotle unit, with new translations, as well as a newly revised glossary.

The Plato unit offers new translations of the *Meno* and *Republic*. In the latter, indirect dialogue is cast into direct dialogue for greater readability.

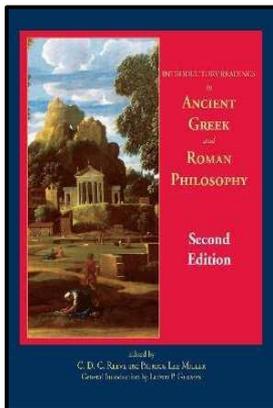

The Presocratics unit has been re-edited and streamlined, and the pages of every unit have been completely reset.

About the Author: S. Marc Cohen is Professor Emeritus of Philosophy, University of Washington.

Patricia Curd is Professor of Philosophy, Purdue University.

Introductory Readings in Ancient Greek and Roman Philosophy

Lloyd P. Gerson Edited by Patrick Lee Miller, C. D. C. Reeve

This concise anthology of primary sources designed for use in an ancient philosophy survey ranges from the Presocratics to Plato, Aristotle, the Hellenistic philosophers, and the Neoplatonists.

The Second Edition features an amplified selection of Presocratic fragments in newly revised translations by Richard D. McKirahan.

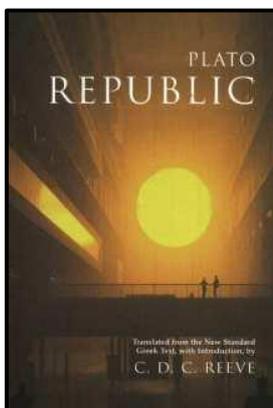

Also included is an expansion of the Hellenistic unit, featuring new selections from Lucretius and Sextus Empiricus as well as a new translation, by Peter J. Anderson, of most of Seneca's *De Providentia*. The selections from Plotinus have also been expanded.

About the Author: C. D. C. Reeve is Delta Kappa Epsilon Distinguished Professor of Philosophy, University of North Carolina, Chapel Hill.

Patrick Lee Miller is Assistant Professor of Philosophy, Duquesne University.

Republic Reeve Edition

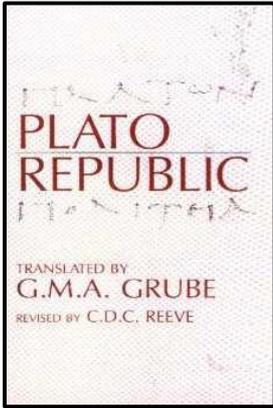

Plato Translated by C. D. C. Reeve

This edition includes a select bibliography, a synopsis of each book, a glossary of terms, a glossary and index of names, and a general index.

Reviews: "Reeve's new translation of *Republic* is the one to order for students. . . . Reeve draws on his thorough understanding of Plato's central work to provide an informed translation and properly brief supporting apparatus. A highlight is the concise, substantive Introduction that usefully encapsulates much of Reeve's own scholarship."

Republic 2nd Edition

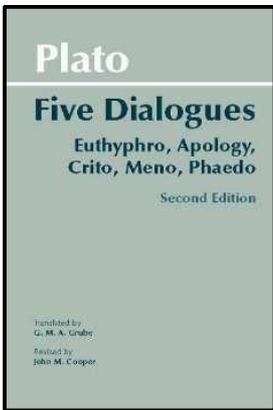

Plato Translated by G. M. A. Grube Revised by C. D. C. Reeve

The revised edition of Grube's classic translation follows and furthers Grube's noted success in combining fidelity to Plato's text with natural readability, while reflecting the fruits of new scholarship and insights into Plato's thought since publication of the first edition in 1974. A new introduction, index, and bibliography by Professor Reeve are included in this new rendering.

Reviews: "C.D.C. Reeve has taken the excellent Grube translation and, without sacrificing accuracy, rendered it into a vivid and contemporary style. It is intensity that is often lost in translation, but not here. This is not just a matter of style. The *Republic* is full of brilliant thoughts, and one needs to preserve brilliance to capture them. In the cave of translations, Reeve's revision of Grube's *Republic* is closest to the sun."

On the Nature of Things

Lucretius Translated by Martin Ferguson Smith

Martin Ferguson Smith's work on Lucretius is both well known and highly regarded. However, his 1969 translation of *De Rerum Natura*—long out of print—is virtually unknown. Readers will share our excitement in the discovery of this accurate and fluent prose rendering. For this edition, Professor Smith provides a revised translation, new Introduction, headnotes and bibliography.

About the Author: Martin Ferguson Smith is Prof. of Classics Emeritus, Univ. of Durham, United Kingdom. Among his scholarly achievements are his revisions of the Rouse translation of *De Rerum Natura* for the Loeb Classical Library.

Hellenistic Philosophy Introductory Readings, 2nd Edition

Edited and translated by Brad Inwood, Lloyd P. Gerson

This new edition of *Hellenistic Philosophy*—including nearly 100 pages of additional material—offers the first English translation of the account of Stoic ethics by Arius Didymus, substantial new sources on Epicureanism, Stoicism, and Scepticism, expanded representation of Plutarch and Cicero, and a fuller presentation of papyrological evidence. Inwood and Gerson maintain the standard of consistency and accuracy that distinguished their translations in the first edition, while regrouping some material into larger, more thematically connected passages. This edition is further enhanced by a new, more spacious page design.

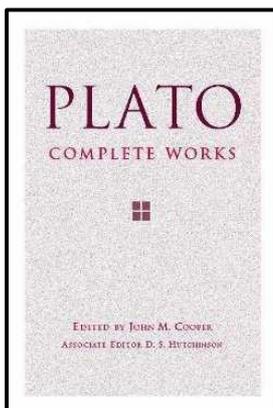

About the Author: Brad Inwood is Professor of Philosophy and Classics, University of Toronto.

Lloyd P. Gerson is Professor of Philosophy, University of Toronto.

Reviews: "The selections are well chosen, the translation accurate and very readable, and the glossary and indices quite helpful. . . . it is to be recommended for it is the best available."

Plato Complete Works

Plato Edited by John M. Cooper, D. S. Hutchinson

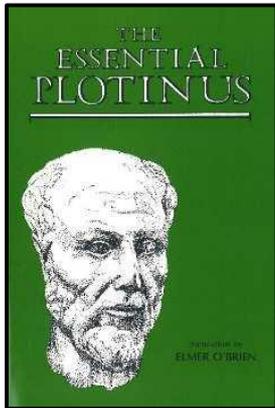

Outstanding translations by leading contemporary scholars—many commissioned especially for this volume—are presented here in the first single edition to include the entire surviving corpus of works attributed to Plato in antiquity. In his introductory essay, John Cooper explains the presentation of these works, discusses questions concerning the chronology of their composition, comments on the dialogue form in which Plato wrote, and offers guidance on approaching the reading and study of Plato's works.

Also included are concise introductions by Cooper and Hutchinson to each translation, meticulous annotation designed to serve both scholar and general reader, and a comprehensive index. This handsome volume offers fine paper and a high-quality Smyth-sewn cloth binding in a sturdy, elegant edition.

Reviews: "This is clearly the definitive edition in English of the Platonic writings. It replaces completely the Hamilton-Cairns collection. . . . The notes are at just the right level, and the index is very helpful. The translations are both readable and accurate."

Zhuangzi

The Essential Writings

With Selections from Traditional Commentaries

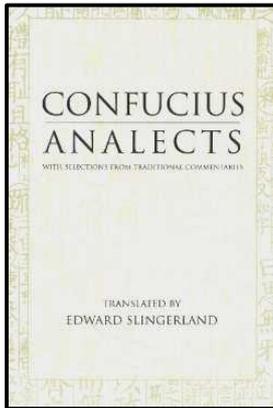

Zhuangzi Translated by Brook Ziporyn

Ideal for students and scholars alike, this edition of *Zhuangzi (Chuang Tzu)* includes the complete Inner Chapters, extensive selections from the Outer and Miscellaneous Chapters, and judicious selections from two thousand years of traditional Chinese commentaries, which provide the reader access to the text as well as to its reception and interpretation. A glossary, brief biographies of the commentators, a bibliography, and an index are also included.

Reviews: "The *Zhuangzi*, with its 'goblet words,' lends itself by design to endless interpretation, of which no single instance has any real claim to the 'correct' meaning of the text. To date, *Zhuangzi* translations have presented their readers with only a single view of the text—that of the translator himself. With Ziporyn's book, the English world finally has the means to read the *Zhuangzi* the way it should be read: through the eyes of many. Ziporyn has carefully selected the most illuminating passages to be found within several of the most brilliant *Zhuangzi* commentaries written over the past two millennia, and he has rendered these often abstruse interpretations, along with the key *Zhuangzi* chapters which form their subject, accurately and lucidly into flowing English prose. This extraordinary work sets the new standard for *Zhuangzi* translations, and will prove an indispensable resource for anyone who wishes to take a comprehensive view of this most timeless and boundless of Chinese philosophical classics."

Analects **With Selections from Traditional Commentaries** Confucius Translated by Edward Slingerland

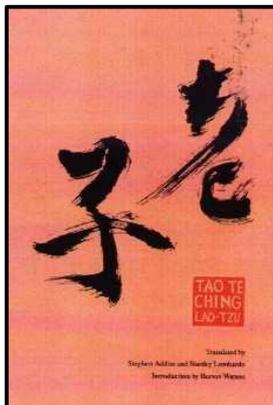

This edition goes beyond others that largely leave readers to their own devices in understanding this cryptic work, by providing an entrée into the text that parallels the traditional Chinese way of approaching it: alongside Slingerland's exquisite rendering of the work are his translations of a selection of classic Chinese commentaries that shed light on difficult passages, provide historical and cultural context, and invite the reader to ponder a range of interpretations. The ideal student edition, this volume also includes a general introduction, notes, multiple appendices—including a glossary of technical terms, references to modern Western scholarship that point the way for further study, and an annotated bibliography.

About the Author: Edward Slingerland is Associate Professor of Asian Studies, Canada Research Chair, University of British Columbia.

Reviews: "Confucius taught that 'virtue is never solitary; it always has neighbors.' (4.25). Based on the best modern and traditional Chinese and Western scholarship, Edward Slingerland's exemplary new translation of the *Analects*—including selections from the traditional commentaries on each passage of the text—is a welcome edition. Contemporary readers will be enlightened as to what Confucius taught his disciples and will share the experience of being a neighbor to all the generations of students who have pondered the sometimes cryptic and enigmatic words of Confucius. Slingerland's use of commentary gives readers a fighting chance at understanding and appreciating this foundational Confucian classic."

Tao Te Ching Lao-Tzu, Burton Watson Translated by Stephen Addiss, Stanley Lombardo

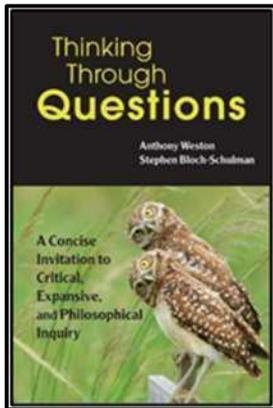

This translation captures the terse and enigmatic beauty of the ancient original and resists the tendency toward interpretive paraphrase found in many other editions. Along with the complete translation, Lombardo and Addiss provide one or more key lines from the original Chinese for each of the eighty-one sections, together with a transliteration of the Chinese characters and a glossary commenting on the pronunciation and meaning of each Chinese character displayed. This greatly enhances the reader's appreciation of how the Chinese text works and feels and the different ways it can be translated into English.

About the Author: Stephen Addiss is Tucker-Boatwright Professor in the Humanities and Professor of Art History, University of Richmond. Stanley Lombardo is Professor of Classics, University of Kansas.

Reviews: "This crystalline translation of the *Tao Te Ching* is accurate down to the nuance and as concisely poetic as the original. It preserves the quirks and flavors of the original text. The translators hearkened to the message of the book itself, and kept it clear and gently strong. Of the many translations I have read in English, this is unquestionably the best."

Thinking Through Questions

A Concise Invitation to Critical, Expansive, and Philosophical Inquiry

Anthony Weston, Stephen Bloch-Schulman

Thinking Through Questions is an accessible and compact guide to the art of questioning, covering both the use and abuse of questions. Animated by wide-ranging and engaging exercises and examples, the book helps students deepen their understanding of how questions work and what questions do, and builds the skills needed to ask better questions.

Cowritten by two of today's leading philosopher-teachers, *Thinking Through Questions* is specifically designed to complement, connect, and motivate today's standard curricula, especially for classes in critical thinking, philosophical questioning, and creative problem-solving (called here "expansive questioning"). Offering students a wide and appreciative look at questions and questioning, this small book will also appeal to faculty and students across the disciplines: in college writing courses, creativity workshops, education schools, introductions to college thinking, design thinking projects, and humanities and thinking classes. Open-ended, creative, and critically self-possessed thinking is its constant theme—what field doesn't need more of that?

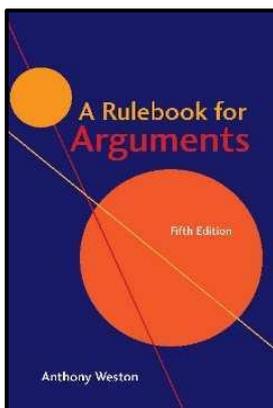

About the Author: Anthony Weston and Stephen Bloch-Schulman think through questions as members of the philosophy department at Elon University.

Reviews: "This small book holds big value for teachers of philosophy and teachers of critical thinking in any discipline. If you want your students to be more 'curious, critical, exploratory, and creative,' this book will serve well as a supplementary or core text. It offers appreciation for the power of questioning, opportunities to identify types of questions, and practice in questioning skills. The authors, both recognized as master teachers, bring their own considerable pedagogical experience and engaging style to encouraging better questioning in all of us."

A Rulebook for Arguments

Anthony Weston

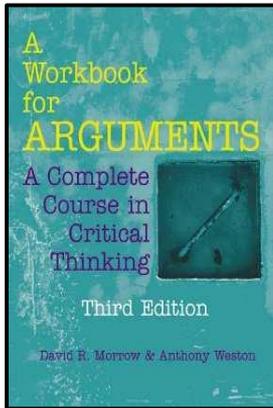

From academic writing to personal and public discourse, the need for good arguments and better ways of arguing is greater than ever before.

This timely fifth edition of *A Rulebook for Arguments* sharpens an already-classic text, adding updated examples and a new chapter on public debates that provides rules for the etiquette and ethics of sound public dialogue as well as clear and sound thinking in general.

Reviews: "This is the ultimate 'how-to' book for anyone who wants to use reasons and evidence in support of conclusions, to be clear instead of confusing, persuasive instead of dogmatic, and better at evaluating the arguments of others."

A Workbook for Arguments A Complete Course in Critical Thinking

David R. Morrow, Anthony Weston

David Morrow and Anthony Weston build on Weston's acclaimed *A Rulebook for Arguments* to offer a complete textbook for a course in critical thinking or informal logic. Features of the book include:

- An updated companion website.
- Homework exercises adapted from a wide range of actual arguments from newspapers, philosophical texts, literature, movies, YouTube videos, and other sources.
- Practical advice to help students succeed when applying the *Rulebook's* rules.
- Suggestions for further practice that outline activities students can do by themselves or with classmates to improve their critical thinking skills.
- Detailed instructions for in-class activities and take-home assignments designed to engage students in critical thinking.
- An appendix on mapping arguments, a topic not included in the *Rulebook*, that introduces students to this vital skill in evaluating or constructing complex and multi-step arguments.
- Model responses to odd-numbered exercises, including commentaries on the strengths and weaknesses of selected model responses as well as further discussion of some of the substantive intellectual, philosophical, and ethical issues raised by the exercises.

The third edition of *Workbook* contains the entire text of the recent fifth edition of the *Rulebook*, supplementing this core text with extensive further explanations and exercises.

Updated and improved homework exercises ensure that the examples continue to resonate with today's students. Roughly one-third of the exercises have been replaced with updated or improved examples.

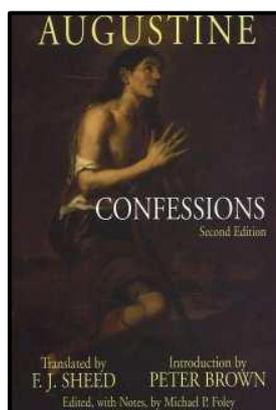

A new chapter on engaging constructively in public debates—including five new sets of exercises—trains students to engage respectfully and constructively on controversial topics, an increasingly important skill in our hyper-partisan age. Three new critical thinking activities offer further opportunities to practice constructive dialogue.

About the Author: David R. Morrow is Research Fellow at the Institute for Philosophy and Public Policy at George Mason University.

Medieval & Renaissance Philosophy

Confessions

Augustine, Peter Brown, Michael P. Foley Translated by F. J. Sheed

Like the first Hackett edition of the Augustine's *Confessions*, the second edition features F. J. Sheed's remarkable translation of this classic spiritual autobiography with an Introduction by noted historian of late antiquity Peter Brown. New to this edition are a wealth of notes on literary, philosophical, biblical, historical, and liturgical topics by Michael P. Foley, an Editor's Preface, a map, a timeline, paragraph numbers in the text, a glossary, and a thorough index. The text itself has been completely reset, with textual and explanatory notes placed at the foot of the page for easy reference.

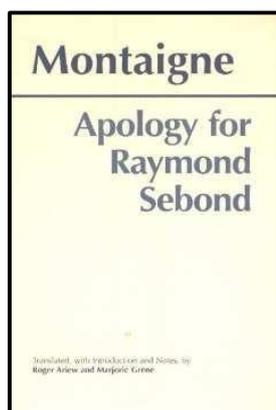

About the Author: F. J. Sheed was co-founder of the publishing house of Sheed & Ward.

Peter Brown is the Philip and Beulah Rollins Professor of History, Princeton University. **Michael P. Foley** is Assistant Professor of Patristics in the Honors College, Baylor University.

Reviews: "Saint Augustine's Latin presents notable difficulties for translators. And even good English translations have usually dated badly. Frank Sheed's, which I read a mere fifty years ago, still shows no signs of dating. It captures Augustine's extraordinary combination of precise statement and poetic evocation as does no other."

Apology for Raymond Sebond

Michel de Montaigne Translated by Roger Ariew, Marjorie Grene

Under the pretense of defending an obscure treatise by a Catalan theologian, Sebond, Montaigne attacks the philosophers who attempt rational explanations of the universe and argues for a skeptical Christianity based squarely on faith rather than reason. The result is the *Apology for Raymond Sebond*, a classic of Counter-Reformation thought and a masterpiece of Renaissance literature.

This new translation by Roger Ariew and Marjorie Grene achieves both accuracy and fluency, conveying at once the nuances of Montaigne's arguments and his distinctive literary style.

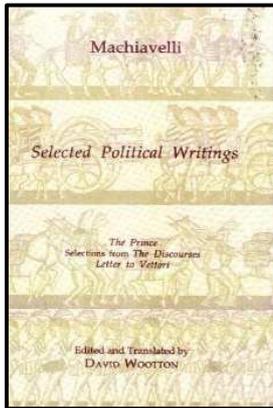

About the Author: **Roger Ariew** is Professor of Philosophy, Virginia Polytechnic Institute and State University.

Marjorie Grene is Professor Emeritus, University of California, Davis, and Honorary Distinguished Professor, Virginia Polytechnic Institute and State University.

Reviews: "Roger Ariew and Marjorie Grene, with the help of Hackett's modest pricing scheme, have made this challenging, infuriating, ironic and hilarious classic readily available in a faithful and well-presented translation. . . . Scholars will find this volume a fine choice for introducing students to early modern philosophy. . . . This is a welcome publication."

Machiavelli: Selected Political Writings
The Prince, Selections from The Discourses, Letter to Vettori
Niccolo Machiavelli Edited and translated by David Wootton

Here are *The Prince* and the most important of the Discourses newly translated into spare, vivid English. Why a new translation? “Machiavelli was never the dull, worthy, pedantic author who appears in the pages of other translations,” says David Wootton in his Introduction. “In the pages that follow I have done my best to let him speak in his own voice.” (And indeed, Wootton’s Machiavelli does just that when the occasion demands: renderings of that most problematic of words, virtù, are in each instance followed by the Italian). Notes, a map, and an altogether remarkable Introduction no less authoritative for being grippingly readable, help make this edition an ideal first encounter with Machiavelli for any student of history and political theory.

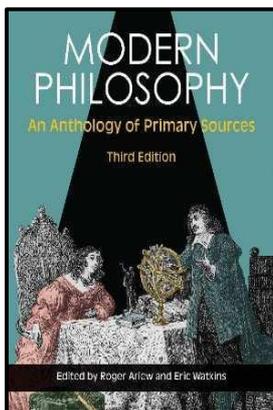

About the Author: David Wootton is Anniversary Professor of History, University of York.

Reviews: “Wootton’s Introduction is an excellent piece of work that offers both scholars and students a valuable guide to Machiavelli’s texts.”

Modern Philosophy

Modern Philosophy
An Anthology of Primary Sources
Edited by Roger Ariew, Eric Watkins

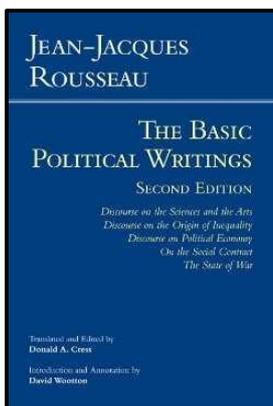

The most widely read anthology for the study of modern philosophy, this volume provides key works of philosophers and other leading thinkers of the period, chosen to enhance the reader’s understanding of modern philosophy and its relationship to the natural sciences of the time.

The third edition incorporates important contributions of women and minority thinkers into the canon of the modern period, while retaining all of the material of the previous edition. Included are works by Princess Elisabeth, Margaret Cavendish Duchess of Newcastle, Lady Anne Conway, Anton Wilhelm Amo, Lady Damaris Masham, Lady Mary Shepherd, and Emilie Marquise Du Châtelet.

Reviews: “This is a wonderful text. . . . [T]he changes made for the 3rd edition are very welcome (especially the new selections from women and philosophers of color). I can’t see using any other text, particularly at this very reasonable price point.”

Classics of Moral and Political Theory

5th Edition

Edited by Michael L. Morgan

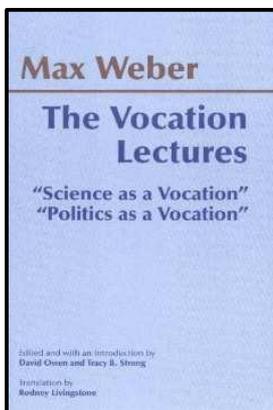

The fifth edition of Michael L. Morgan's *Classics of Moral and Political Theory* broadens the scope and increases the versatility of this landmark anthology by offering new selections from Aristotle's *Politics*, Aquinas' *Disputed Questions on Virtue* and *Treatise on Law*, as well as the entirety of Locke's *Letter Concerning Toleration*, Kant's *To Perpetual Peace*, and Nietzsche's *On the Advantage and Disadvantage of History for Life*.

About the Author: Michael L. Morgan is Professor of Philosophy, Indiana University.

Reviews: "Morgan continues to place all of us who teach courses in political theory in his debt. Here in one place are gathered most of the central classics in the field. Hosanna too, to Hackett for making the text affordable."

The Vocation Lectures

'Science as a Vocation'; 'Politics as a Vocation'

Max Weber Edited by David Owen, Tracy B. Strong Translated by Rodney Livingstone

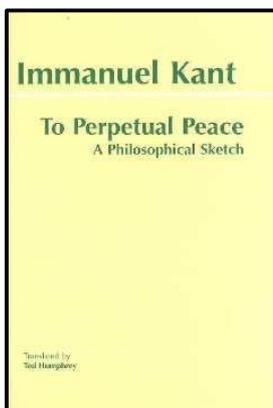

Originally published separately, Weber's "Science as a Vocation" and "Politics as a Vocation" stand as the classic formulations of his positions on two related subjects that go to the heart of his thought: the nature and status of science and its claims to authority; and the nature and status of political claims and the ultimate justification for such claims. Together in this volume, these newly translated lectures offer an ideal point of entry into Weber's central project: understanding how, as Weber put it, "in the West alone there have appeared cultural manifestations [that seem to] go in the direction of universal significance and validity."

About the Author: Tracy B. Strong is Professor of Political Science, University of California, San Diego.

David Owen is Reader in Politics and Deputy Director of the Centre for Post-Analytic Philosophy, University of Southampton.

Rodney Livingstone, Emeritus Professor of German, University of Southampton, has translated works by Marx, Lukács, Benjamin, and Adorno.

A Philosophical Sketch

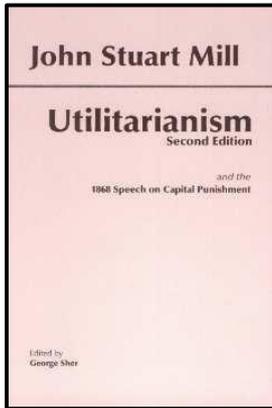

Immanuel Kant Translated by Ted Humphrey

In this short essay, Kant completes his political theory and philosophy of history, considering the prospects for peace among nations and addressing questions that remain central to our thoughts about nationalism, war, and peace.

Ted Humphrey provides an eminently readable translation, along with a brief introduction that sketches Kant's argument.

About the Author: Ted Humphrey is Professor of Philosophy at the University of Arizona, Tempe.

Utilitarianism and the 1868 Speech on Capital Punishment

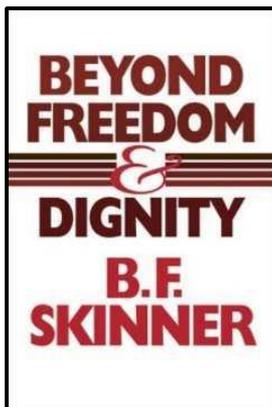

John Stuart Mill Edited by George Sher

This expanded edition of John Stuart Mill's *Utilitarianism* includes the text of his 1868 speech to the British House of Commons defending the use of capital punishment in cases of aggravated murder. The speech is significant both because its topic remains timely and because its arguments illustrate the applicability of the principle of utility to questions of large-scale social policy.

Reviews: "Adding the selections from the Speech on Capital Punishment is an excellent idea."

Beyond Freedom and Dignity

B. F. Skinner

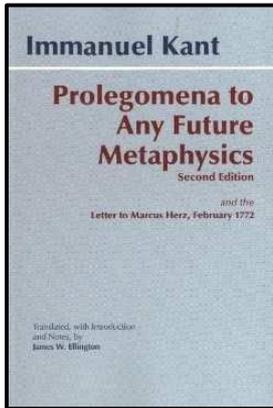

In this profound and profoundly controversial work, a landmark of 20th-century thought originally published in 1971, B. F. Skinner makes his definitive statement about humankind and society.

Insisting that the problems of the world today can be solved only by dealing much more effectively with human behavior, Skinner argues that our traditional concepts of freedom and dignity must be sharply revised. They have played an important historical role in our struggle against many kinds of tyranny, he acknowledges, but they are now responsible for the futile defense of a presumed free and autonomous individual; they are perpetuating our use of punishment and blocking the development of more effective cultural practices. Basing his arguments on the massive results of the experimental analysis of behavior he pioneered, Skinner rejects traditional explanations of behavior in terms of states of mind, feelings, and other mental attributes in favor of explanations to be sought in the interaction between genetic endowment and personal history. He argues that instead of promoting freedom and dignity as personal attributes, we should direct our attention to the physical and social environments in which people live. It is the environment rather than humankind itself that must be changed if the traditional goals of the struggle for freedom and dignity are to be reached.

Beyond Freedom and Dignity urges us to reexamine the ideals we have taken for granted and to consider the possibility of a radically behaviorist approach to human problems—one that has appeared to some incompatible with those ideals, but which envisions the building of a world in which humankind can attain its greatest possible achievements.

About the Author: Burrhus Frederic Skinner (1904-1990), regarded by many as the most important and influential psychologist since Freud, earned his doctorate in psychology at Harvard University in 1931. Following appointments at the University of Minnesota and Indiana University, he returned to Harvard in 1948. He remained there for the rest of his career, retiring in 1974 as Edgar Pierce Professor of Psychology. His many works include *Walden Two* (1948) and *Verbal Behavior* (1957).

Discourse on Method and Meditations on First Philosophy Fourth Edition

René Descartes Translated by Donald A. Cress

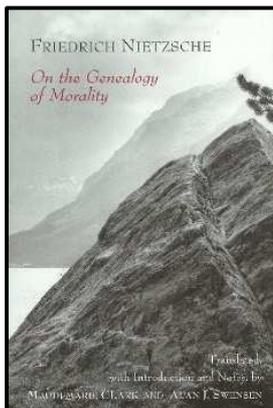

This edition contains Donald Cress's completely revised translation of the *Meditations* (from the corrected Latin edition) and recent corrections to *Discourse on Method*, bringing this version even closer to Descartes's original, while maintaining the clear and accessible style of a classic teaching edition.

About the Author: Donald A. Cress is Professor Emeritus of Philosophy, University of Wisconsin, Parkside. His translations of Descartes' *Meditations on First Philosophy* and *Discourse on Method* are also published by Hackett.

Reviews: "The new version of Cress's translation of Descartes's *Meditations* has attained an unusually high degree of readability . . . and, at the same time, of fidelity to the original. This combination . . . makes the work especially suitable for classroom use."

On the Genealogy of Morality

Friedrich Nietzsche Translated by Maudemarie Clark, Alan J. Swensen

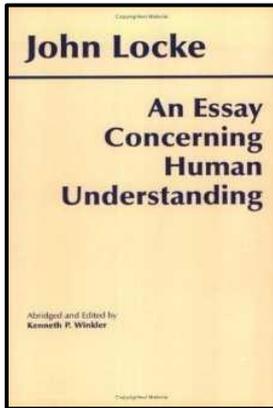

This new edition is the product of a collaboration between a Germanist and a philosopher who is also a Nietzsche scholar. The translation strives not only to communicate a sense of Nietzsche's style but also to convey his meaning accurately—and thus to be an important advance on previous translations of this work. A superb set of notes ensures that Clark and Swensen's *Genealogy* will become the new edition of choice for classroom use.

About the Author: Maudemarie Clark is Professor of Philosophy, Colgate University. Alan J. Swensen is Associate Professor of German, Colgate University.

Reviews: "Hackett's *On the Genealogy of Morality* (we now have even the correct title!) may very well change the entire climate for reading Nietzsche in English—especially if read in conjunction with their equally splendid *Twilight of the Idols*. . . . Competing translations of Nietzsche's late, utterly influential masterpieces have often made them a chore, rather than a delight, to read; and their introductions generally obscure, rather than illuminate, the texts' situations. Clark and Swensen (and Polt and Strong) have made the *Genealogy* and *Twilight* accessible and exhilarating—while leaving them, as they are, enigmatic and problematic. Finally, readers of Nietzsche in English can—begin!"

An Essay Concerning Human Understanding

John Locke Edited by Kenneth P. Winkler

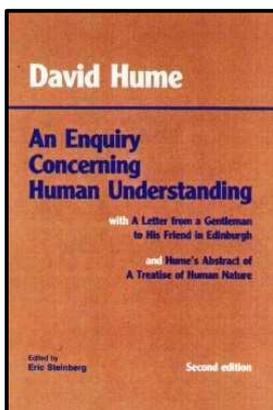

Includes generous selections from the Essay, topically arranged passages from the replies to Stillingfleet, a chronology, a bibliography, a glossary, and an index based on the entries that Locke himself devised.

About the Author: John Locke (1632-1704) was an English philosopher and physician.

Reviews: "This abridgment by Kenneth Winkler is the best that has ever been done. Winkler's judgment as to what must be kept and what may be dropped is unerring, and his literary skill has enabled him to fashion a text that reads smoothly. An illuminating Introduction and comprehensive glossary enhance the value of this volume for students."

An Enquiry Concerning Human Understanding with Hume's Abstract of A Treatise of Human Nature and A Letter from a Gentleman to His Friend in Edinburgh

David Hume Edited by Eric Steinberg

A landmark of Enlightenment thought, Hume's *An Enquiry Concerning Human Understanding* is accompanied here by two shorter works that shed light on it: *A Letter from a Gentleman to His Friend in Edinburgh*, Hume's response to those accusing him of atheism, of advocating extreme skepticism, and of undermining the foundations of morality; and his *Abstract of A Treatise of Human Nature*, which anticipates discussions developed in the *Enquiry*.

In his concise Introduction, Eric Steinberg explores the conditions that led Hume to write the *Enquiry* and the work's important relationship to Book I of Hume's *A Treatise of Human Nature*.

Meditations on First Philosophy 3rd Edition

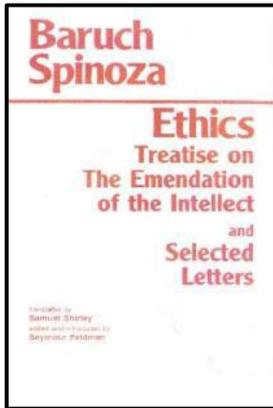

René Descartes Translated by Donald A. Cress

Descartes's *Meditations on First Philosophy*, the fundamental and originating work of the modern era in Western philosophy, is presented here in Donald Cress's completely revised edition of his well-established translation, bringing this version even closer to Descartes's original, while maintaining its clear and accessible style.

Reviews: "The new version of Cress's translation of Descartes's *Meditations* has attained an unusually high degree of readability . . . and at the same time, of fidelity to the original."

Ethics with The Treatise on the Emendation of the Intellect and Selected Letters

Baruch Spinoza Translated by Samuel Shirley Edited by Seymour Feldman

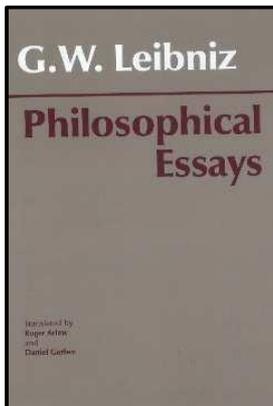

Since their publication in 1982, Samuel Shirley's translations of Spinoza's *Ethics* and *Selected Letters* have been commended for their accuracy and readability. Now with the addition of his new translation of *Treatise on the Emendation of the Intellect* this enlarged edition will be even more useful to students of Spinoza's thought.

About the Author: Samuel Shirley, (1912-2006), was Classics Exhibitioner of Balliol College, Oxford, and Latin Lecturer at Cardiff University.

Reviews: "Professor Shirley has provided a translation which is fluent, eminently readable, and responsive to current research into Spinoza's thought. Where a particular passage is difficult or obscure, Shirley never attempts to interpose himself between the reader and Spinoza, nor to side with one or another competing school of interpretation. This makes his translation not just an ideal introduction for the reader new to Spinoza, but also a trustworthy source of insight for the more advanced reader."

Leibniz Philosophical Essays

Gottfried Wilhelm Leibniz Translated by Roger Ariew, Daniel Garber

Although Leibniz's writing forms an enormous corpus, no single work stands as a canonical expression of his whole philosophy. In addition, the wide range of Leibniz's work—letters, published papers, and fragments on a variety of philosophical, religious, mathematical, and scientific questions over a fifty-year period—heightens the challenge of preparing an edition of his writings in English translation from the French and Latin.

An Enquiry Concerning the Principles of Morals

David Hume Edited by J. B. Schneewind

"A splendid edition. Schneewind's illuminating introduction succinctly situates the *Enquiry* in its historical context, clarifying its relationship to Calvinism, to Newtonian science, and to earlier moral philosophers, and providing a persuasive account of Hume's ethical naturalism."

The Methods of Ethics **7th Edition**

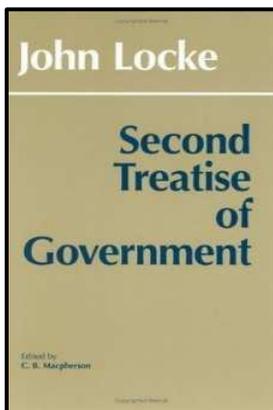

Henry Sidgwick, John Rawls

This Hackett edition is an unabridged and unaltered republication of the seventh (1907) edition as published by Macmillan and Company, Limited.

From the foreword by John Rawls:

"In the utilitarian tradition Henry Sidgwick (1838-1900) has an important place. His fundamental work, *The Methods of Ethics* (first edition 1874, seventh and last edition 1907, here reprinted), is the clearest and most accessible formulation of what we may call 'the classical utilitarian doctrine.' This classical doctrine holds that the ultimate moral end of social and individual action is the greatest net sum of the happiness of all sentient beings. Happiness is specified (as positive or negative) by the net balance of pleasure over pain, or, as Sidgwick preferred to say, as the net balance of agreeable over disagreeable consciousness. . . ."

Second Treatise of Government

John Locke Edited by C. B. Macpherson

The *Second Treatise* is one of the most important political treatises ever written and one of the most far-reaching in its influence.

In his provocative 15-page introduction to this edition, the late eminent political theorist C. B. Macpherson examines Locke's arguments for limited, conditional government, private property, and right of revolution and suggests reasons for the appeal of these arguments in Locke's time and since.

Reviews: "Macpherson provides for his readers a tightly written, meaty, and often invigorating critical assessment of Locke's argument. In it one finds some of the best of Macpherson's now famous criticism of liberal-democratic government."
