## **A Certain Arrogance**

### **The Sacrificing of Lee Harvey Oswald and the Wartime Manipulation of Religious Groups by U.S. Intelligence**

George Michael Evica, Charles Robert Drago

Providing the first global cultural context for the assassination of John F. Kennedy, this investigation into how United States intelligence agencies and other entities manipulated liberal religious groups and educational institutions for ideological, political, and economic gain during the Cold War exposes numerous previously misunderstood political operations. Including assassinations, these projects include those facilitated by Allen Dulles, John Foster Dulles, the U.S. State Department, the Office of Strategic Services and its successor, the CIA, and other individuals and groups. Focusing on the manipulations of key individuals in the American Unitarian Association, the Unitarian Service Committee, and the Unitarian-supported Albert Schweitzer College by covert American interests during the Cold War, this exposé asserts that an unwitting Lee Harvey Oswald--an asset and pawn of American intelligence--was the ideal scapegoat in a tragically successful conspiracy to murder President Kennedy.

## **A Memoir of Injustice**

### **By the Younger Brother of James Earl Ray, Alleged Assassin of Martin Luther King, Jr**

Jerry Ray, Tamara Carter

Including previously undisclosed information on one of the most significant and mysterious events in modern American history, this account debunks the myth that James Earl Ray was a racist and documents his actual location on one of the critical days leading up to the assassination of Martin Luther King Jr. The memoir also reveals photographs of James Earl Ray when he was ill in prison and gives the key to a code used by the brothers in planning a prison break. Presenting a mesmerizing perspective on the manipulation of the media in reporting on race relations, the working middle class, and the U.S. criminal justice system, this account broadcasts an urgent call to action to correct some of the many injustices that surround these events, such as the U.S. government's refusal to rigorously test the alleged murder weapon, and encourages support for new federal legislation.

## **A Rose by Many Other Names**

### **Rose Cherami & the JFK Assassination**

Todd C Elliott

Shifting the focus away from the assassination of John F. Kennedy in Dealey Plaza in Dallas, Texas, to 48 hours prior in Eunice, Louisiana, this book explores the prediction made by Melba Marcades, aka Rose Cherami, that the president would be assassinated on Friday, November 22, 1963 in Dallas. Discounting clairvoyance, the book investigates the possibility that Rose had inside information about the assassination. However, Rose Cherami was not a credible witness: she was a prostitute, a one-time performer in Jack Ruby's Carousel Club, an admitted drug trafficker, a drug addict, and a car thief. But the author's research reveals glaring omissions in her FBI files, questionable admissions regarding her criminal history, and the dubious details of her untimely demise. This book sheds new light on a relatively unknown footnote of the JFK conspiracy theory.

### **A Sorcerer's Apprentice**

#### **A Skeptic's Journey into the CIA's Project Stargate and Remote Viewing**

John Herlosky

Follow the fascinating story of one man's journey into the realm of the fantastic: the CIA-sponsored psychic spies with the ability to extend their consciousness to accurately describe targets not only half a world away but to look into the future as well. It all sounded like science fiction to John Herlosky after reading an expose by former member of the CIA's Project Stargate, Dr David Morehouse. Two years later, skeptical but intrigued by the possibilities implied, John entered the classroom of Dr Morehouse to find out the truth -- and never looked back. Sorcerer's Apprentice is an autobiographical account of the author's experience learning the CIA-sponsored scientifically validated form of extrasensory perception called "remote viewing".

### **A Whig Manifesto**

#### **A Short History of the Whig Movement with Modern Whig Party Perspectives on Current Political and Social Controversies**

Chuck Morse, Andrew Evans

The modern Whig movement and, specifically, the Modern Whig Party is a quickly growing third party in America and this book examines its political philosophy. Drawing from the history and traditions of the party -- those that animated the public policies and careers of such great American Whigs as George Washington, Alexander Hamilton, Henry Clay, John Quincy Adams, Daniel Webster, and Abraham Lincoln -- this book explains the set of core beliefs that Whigs believe are essential to American governance. It goes on to relate how Whig ideology can be applied to current governmental issues today, touching upon the mortgage crisis, taxes, civil rights, and health care. Making the case for American political and economic nationalism, this manifesto offers insights into a uniquely American philosophy.

## **America's Nazi Secret An Insider's History**

John Loftus

Fully revised and expanded, this stirring account reveals how the U.S. government permitted the illegal entry of Nazis into North America in the years following World War II. This extraordinary investigation exposes the secret section of the State Department that began, starting in 1948 and unbeknownst to Congress and the public until recently, to hire members of the puppet wartime government of Byelorussia -- a region of the Soviet Union occupied by Nazi Germany. A former Justice Department investigator uncovered this stunning story in the files of several government agencies, and it is now available with a chapter previously banned from release by authorities and a foreword and afterword with recently declassified materials.

In that time he was repeatedly promised by an American intelligence asset that a deal for his repatriation would be worked out but it never was. Speicher was left behind. ## **Anatomyzing Divinity** **Studies in Science, Esotericism and Political Theology**

James L Kelley, Joseph P Farrell

This three-part analysis of modernity assesses the impact that Western thought and philosophy has had on today's world. Making use of neglected research from the fringes of academia, "Anatomyzing Divinity" traces the circuitous path of occult wisdom from China, India, Egypt and the Hellenistic world to Byzantium and beyond. At the heart of the book is an investigation of the life and thought of G. W. Leibniz, the man who invented calculus and laid the groundwork for binary code, which in turn made computers possible. Leibniz's roots, Kelley shows, lay in the Frankish metaphysical tradition, and thus have little in common with some of his contemporaries' materialism. Along the way, sidelights are turned on 1) the occult basis of Western political systems, as well as 2) the alchemical basis of much Western philosophy and theology.

## **Behold a Pale Farce** **Cyberwar, Threat Inflation & the Malware Industrial Complex**

Bill Blunden, Violet Cheung

This book presents a data-driven message that exposes the cyberwar media campaign being directed by the Pentagon and its patronage networks. By demonstrating that the American public is being coerced by a threat that has been blown out of proportion -- much like the run-up to the Gulf War or the global war on terror -- this book discusses how the notion of cyberwar instills a crisis mentality that discourages formal risk assessment, making the public anxious and hence susceptible to ill-conceived solutions. With content that challenges conventional notions regarding cyber security, the ebook covers topics -- including cybercrime; modern espionage; mass-surveillance systems; and the threats facing infrastructure targets such as the Federal Reserve, the stock exchange, and telecommunications -- in a way that provides objective analysis rather than advocacy.

**Betrayal**  
**A JFK Honor Guard Speaks**  
Hugh Clark, William Matson Law

The amazing story that William Law has documented with his historical interviews helps us to understand our true history. This compelling information shreds the official narrative. In 2015, Law and fellow researcher Phil Singer got together the medical corpsman, who had been present at Bethesda Naval Hospital for President Kennedy's autopsy with some of the official honor guard, who had delivered the president's coffin. What happened next was extraordinary. The medical corpsmen told the honour guards that they had actually received the president's body almost a half-hour before the honor guard got there. The honour guard could not believe this. They had met the president's plane at Andrews, taken possession of his casket and shadowed it all the way to Bethesda. The two sides almost broke into fisticuffs, accusing the other of untruths. Once it was sifted out, and both sides came to the understanding that each was telling their own truths of their experience that fateful day, the feelings of betrayal experienced by the honor guards was deep and profound. This is dynamic first person testimony.

**Money, Motive & Technology**  
Mark H Gaffney

The weeks following the attacks of 11 September 2001, were traumatic for nearly every American, but for some, the answers they received from the media and the government to explain the horrific events was not satisfactory. Accusations of cover-ups, internal plots, and sabotage from within the ranks of the U.S. government were -- and continue to be -- not uncommon. But compelling evidence contrary to the accepted narrative has, for some sceptics, been lacking. This investigation into the events of that day reveals dark secrets about United States-sponsored terrorism. Taking highly complex technical and scientific information, and distilling it for the consumption of the lay person, this inquiry attempts to reveal the truth behind that infamous day.

## **Burying the Lead**

### **The Media and the JFK Assassination**

Mal Jay Hyman

The Cold War ushered in a time of secrecy -- and willing media cooperation to keep those secrets. But even after winning that war, the vault of secrets remains firmly locked, especially surrounding John F. Kennedy's murder. Even for those who fundamentally oppose the current presidential administration, notions of a national security state and "fake news" must be examined to maintain a functional democracy. This book explains the rapid decline in confidence in government that started after the assassination of JFK. The mainstream media failed to go beyond repeating the official story, and by 1991 they, along with academe and the government, had stopped investigating altogether. It was filmmaker Oliver Stone whose film fueled public outrage and led to the JFK Act to declassify all of the remaining documents. Almost four million pages of documents were then released -- that even Congress had not yet seen. The JFK Act stated that all files must be released by October 2017, yet thousands are still withheld on the grounds of national security. This volume examines the tight alliances that have allowed this cover-up for more than 50 years. President Kennedy declared in October 1963 that "men who create power make an indispensable contribution to a nation's greatness, but the men who question power make a contribution just as indispensable, especially when they are disinterested, for they determine whether we use power or power uses us."

### **Discussions with Dr Robert W P Cutler, MD on the Murder of Jane Stanford**

Stephen Herrick Requa

This is a solution to the suppressed history of the 20th and 21st centuries: it reveals the fundamental realities underlying the events -- starting with the 1905 murder of Jane Stanford and its related subsequent 1913 passage of the Federal Reserve Act -- that established that elite privately owned bank, the Federal Reserve. These discussions with the late Dr Robert W P Cutler, one of Stanford University's most respected neurologists and author of *The Mysterious Death of Jane Stanford*, explore the realities of the Jane Stanford murder, as organised by John D Rockefeller, Theodore Roosevelt, and Stanford's then-president David Starr Jordan. The book asserts that they organised the murder/poisoning of Jane Stanford so as to create their first money machine used for large bribes and political pay-offs, disguised covertly as donations. It further suggests that some of the most horrendous events in U.S. history, such as the JFK assassination and the destruction of the World Trade Centers, were only possible because the most implacable of the world's highest-level criminals had their own private money machine the Federal Reserve Bank. The book contains over 300 communications/e-mails from Dr Cutler during the time he was researching his historic book as well as his candid thoughts and conclusions far too controversial and explosive to be published.

### **The Politics of Sexual Perversion**

Walter J Baeyens

Why is it that western nations stand idly by as their weakest, their children, are being abducted, sexually abused, and brutally killed by the thousands? What if civilization is not society's victory over the "law of the strongest?" This hard-won victory is based on discipline, moral restraint, and on the principle of reason over passion. When reason is supplanted by passion, all that is needed to control the people is to control their passions. This volume argues that those who believe sexual liberation equates to human progress have been misled by social engineers intent on destroying families, society, and civilization. Is it a coincidence that high level clerics and politicians everywhere deny the existence of pedophile and satanic networks? Why is the UN advocating for the legalization of pedophilia by lowering the age of consent? Once human sexuality has been mechanized, severed from affection and biology, the world's gates will be wide open for eugenics, transhumanism, and technocratic rule.

## **Colonel Crystal's Parallel Universe**

James Hufferd

Colonel Alva A. Crystal, U.S.A.F. (ret.), argues that ubiquitous overseas intervention by the U.S. military in the past few decades not only stifles American economic competitiveness and viability, but has done far more harm than good to both America's image and global stability. The result is that the United States is viewed worldwide as the most dangerous country and the leading obstacle to world peace. The troubled Col. Alva Crystal desperately heralds a return to the defense-only military mission that prevailed in the U. S. during its formative years. Such a return to what Colonel Crystal refers to and touts as a "Benevolent Military" would, he claims, effectively serve to address and repair much of what plainly has gone haywire with this country since 9/11.

### A Review of Cures for Cancer and their Unlawful Suppression

Mary W Maxwell

This book is not about so-called alternative medicine. It is about standard, orthodox medicine that had many good treatments for cancer up until the early 20th century. For reasons of power and control of the population, it was decided around 1910 that only radiation and surgery would be the approved treatments (and chemo was later added in the 1950s). Maxwell shows how physicians who tried to use the older methods were threatened with loss of their medical license or were more harshly punished. These include Emanuel Revici, Virginia Livingston, and Robert Lincoln. She also argues that Edward Jenner engaged on fraud re smallpox vaccination.

### Oswald and Key to the JFK Assassination

Judyth Vary Baker, Jesse Ventura

Of the all the people surrounding the assassination of President Kennedy, few are more mysterious and enigmatic than David William Ferrie of New Orleans. Author Judyth Vary Baker knew David Ferrie personally and worked with him in a covert project in New Orleans during the summer of 1963, and this book examines his strange and puzzling behavior both before and after the assassination. At the time of the assassination, Ferrie was a 45-year-old New Orleans resident who was acquainted with some of the most notorious names linked to the assassination. He possessed assorted talents and eccentricities: he was at one time a senior pilot with Eastern Airlines until he was fired for homosexual activity on the job; he was also a hypnotist; a serious researcher of the origins of cancer; an amateur psychologist; and a victim of a strange disease, alopecia, which made all of his body void of hair. This is the first book focused solely on David Ferrie and his alleged involvement in the conspiracy to assassinate President John F. Kennedy.

## **Disconnecting the Dots** **How 9/11 Was Allowed to Happen**

Kevin Fenton

Questioning actions taken by American intelligence agencies prior to 9/11, this investigation charges that intelligence officials repeatedly and deliberately withheld information from the FBI, thereby allowing hijackers to attack the World Trade Center and the Pentagon. Pinpointing individuals associated with Alec Station, the CIA's Osama bin Laden unit, as primarily responsible for many of the intelligence failures, this account analyzes the circumstances in which critical intelligence information was kept from FBI investigators in the wider context of the CIA's operations against al-Qaeda, concluding that the information was intentionally omitted in order to allow an al-Qaeda attack to go forward against the United States. The book also looks at the findings of the four main 9/11 investigations, claiming they omitted key facts and were blind to the purposefulness of the wrongdoing they investigated. Additionally, it asserts that Alec Station's chief was involved in key post-9/11 events and further intelligence failures, including the failure to capture Osama bin Laden at Tora Bora and the CIA's rendition and torture program.

## **Drugs as Weapons Against Us** **The CIA's Murderous Targeting of SDS, Panthers, Hendrix, Lennon, Cobain, Tupac, and Other Leftists**

John L Potash

Drugs as Weapons Against Us meticulously details how a group of opium-trafficking families came to form an American oligarchy and eventually achieved global dominance. This oligarchy helped fund the Nazi regime and then saved thousands of Nazis to work with the Central Intelligence Agency. CIA operations such as MK-Ultra pushed LSD and other drugs on leftist leaders and left-leaning populations at home and abroad. Evidence supports that this oligarchy further led the United States into its longest-running wars in the ideal areas for opium crops, while also massively funding wars in areas of coca plant abundance for cocaine production under the guise of a "war on drugs" that is actually the use of drugs as a war on us. Drugs as Weapons Against Us tells how scores of undercover U.S. Intelligence agents used drugs in the targeting of leftist leaders from SDS to the Black Panthers, Young Lords, Latin Kings, and the Occupy Movement. It also tells how they particularly targeted leftist musicians, including John Lennon, Jimi Hendrix, Kurt Cobain, and Tupac Shakur to promote drugs while later murdering them when they started sobering up and taking on more leftist activism.

## **Echo of Distant Water** **The 1958 Disappearance of Portland's Martin Family**

J B Fisher

In December 1958, Ken Martin, his wife Barbara, and their three young daughters left their home in Northeast Portland to search for Christmas greens in the Columbia River Gorge -- and never returned. The Martins' disappearance spurred the largest missing persons search in Oregon history and the mystery has remained perplexingly unsolved to this day. For the past six years, JB Fisher ( Portland on the Take ) has pored over the case after finding in his garage a stack of old Oregon Journal newspaper articles about the story. Through a series of serendipitous encounters, Fisher obtained a wealth of first-hand and never-before publicized information about the case including police reports from several agencies, materials and photos belonging to the Martin family, and the personal notebooks and papers of Multnomah County Sheriff's Detective Walter E. Graven, who was always convinced the case was a homicide and worked tirelessly to prove it. Graven, however, faced real resistance from his superiors to bring his findings to light. Used as a trail left behind after his 1988 death to guide future researchers, Graven's personal documents provide fascinating insight into the question of what happened to the Martins -- a path leading to abduction and murder, an intimate family secret, and civic corruption going all the way to the Kennedys in Washington, DC.

## **Echoes From the Set**

Katherine Ann Wilson

During her decades-long career in film, author Katherine Ann Wilson has amassed an amazing collection of movie memorabilia from 50 different major motion pictures. There are close to 500 photographs of these artifacts, from wardrobe sketches to call sheets, and some rather encyclopedic items like images of crew badges and set cranes. Katherine has been a mentor for film students as well -- starting them as gofers, teaching them set etiquette, then taking them all the way through screenplay, set design, camera composition, auditioning, editing, soundtrack composition, copyright, marketing, premieres, film festivals, and world-wide distribution. More than a resource for film mentors like Katherine, this book answers the most unanswered question: How did you get into the movie business? For readers wanting to know how to stay in it, and how to succeed, Katherine delves into the art of filmmaking and her personal experiences.

C J Hinke was arrested in over 35 civil disobedience actions organized by the pacifist movement from 1963 to 1969. He was the last American arrested for the Vietnam draft and was pardoned by Jimmy Carter in his first official act as US president. After moving to Canada, he defended himself before the British Columbia Supreme Court, and served prison time, including solitary confinement, for blockading clearcut logging and roadbuilding by multinational corporados. This is the first chronicle of absolutist resisters to war from World War I through Iraq and Afghanistan, surveying military conscription and desertion worldwide.

## **From an Office Building with a High-Powered Rifle** **One FBI Agent's View of the JFK Assassination**

Don Adams, Harrison E Livingstone

The personal and professional story of a former FBI agent, this is the journey Don Adams has taken over the past 50 years that has connected him to the assassination of the 35th president of the United States. On 13 November 1963, Adams was given a priority assignment to investigate Joseph Milteer, a man who had made threats to assassinate the president. Two weeks later John F. Kennedy was dead, and Agent Adams was instructed to locate and question Milteer. Adams, however, was only allowed to ask the suspect five specific questions before being told to release him. He was puzzled by the bizarre orders but thought nothing more of it until years later when he read a report that stated that not only had Joseph Milteer made threats against the president, but also that he claimed Kennedy would be killed from an office building with a high-powered rifle. Since that time, Adams has compiled evidence and research from every avenue available to him.

## **Hope Restored: An Autobiography by Paul Hellyer** **My Life and Views on Canada, the U.S., the World & the Universe**

Paul Hellyer

This powerful book argues that the human species is at a tipping point when it is forced to choose between a New World Order fascist government committed to rapid depopulation or a world of peace and justice. Hellyer demonstrates that God is alive, well and everywhere, and that humanity's choice is between the Dark and the Light. To follow the Light means giving up atomic weapons, replacing the oil economy with clean zero-point energy developed by Americans in the 1960s, having governments create 34 percent of all new money for public purposes rather than borrowing it from the 62 elite banking families, a reconciliation of the two main branches of Islam, and a just settlement of the Israeli-Palestinian dispute to bring peace to the Middle East.

Was it a truly democratic event? And, above all, what are the interests behind the election of Trump? From his privileged status as a Russian ex-spy, Daniel Estulin dives into the long process that has led Donald Trump to the presidency. ## **Kennedy and Oswald** **The Big Picture**

Judyth Vary Baker, Edward Schwartz

Unraveling the many strands of hidden history behind the assassination of President Kennedy is not an easy task. Co-authors Baker and Schwartz guide us toward the conclusion that ultimately, the motivation was total governmental control, a coup d'état, changing us from a democratic republic to an oligopoly -- a corporatocracy. With help from new witnesses regarding the "Crime of the Century", we are led to the realization that the "War of Terror" and the Patriot Act were pre-designed to undermine our US Constitution and our Bill of Rights. The very moment Kennedy died our own government turned against "We the People". Baker and Schwartz provide a compelling narrative showing Oswald's innocence and a condemnation of the conspirators who planned and carried out the assassination of our 35th president and our Republic.

## **Killing God's Enemies:** **The Crazy War Against Jews, African-Americans and the U.S. Government**

John Lee Brook

Killing God's Enemies relates the origin, history and activities of the church of Christian Identity and its violent outgrowth called the Phineas Priesthood. In doing so, the book reveals the group's philosophy of hate; their methodology, which is death to all blacks, Jews, homosexuals and abortionists; and their goal, which is an America ruled by white men. Its radical arm -- the Phineas Priesthood -- barely registers on the radar screens of the general public's consciousness. That is, until it's too late. For the Phineas Priesthood is unlike any other priesthood. There is no seminary and no ordination. There is only one requirement: kill the enemies of God. Killing God's Enemies will tell the fantastic but true tale of how Christian Identity came to exist, where the idea of the Phineas Priesthood came from, relate the violent exploits of the Priesthood's lone warriors, and show how Anti-Semitism forms the fulcrum upon which Christian Identity pivots.

## Letters to the Cyborgs

### As Humans Become 51% Machine, or More, Who Will Inherit the Earth?

Judyth Vary Baker

This book describes a frightening future about to land on our doorsteps, based on inventions, science and technology we have today. Each story details the political, social, and environmental destruction of our world as Artificial Intelligence takes over the planet. With intelligence, insight and humour, Baker examines what it means to be human in a world where Cyborgs and robots rule. Ranging from chilling visions of Armageddon to haunting stories of the power of human love, with some comic relief thrown in to make the truth easier to handle, this ground-breaking collection of short stories faces the questions scientists, politicians and corporations are ignoring: when Artificial Intelligence becomes "self-aware" and is a thousand times more intelligent than any human being, what happens next? Scientists tell us that this "Singularity" will occur by 2030. "What is human?" will become the most important question in history as humans become 51% or more machine.

### Cannabis, Magickal Herbs and the Occult

Chris Bennett

Although little known, cannabis and other psychoactive plants held a prominent and important role in the Occult arts of Alchemy and Magic, as well as being used in ritual initiations of certain secret societies. Find out about the important role cannabis played in helping to develop modern medicines through alchemical works. Cannabis played a pivotal role in spagyric alchemy, and appears in the works of alchemists such as Zosimos, Avicenna, Llull, Paracelsus, Cardano and Rabelais. Cannabis also played a pivotal role in medieval and renaissance magic and recipes with instructions for its use appear in a number of influential and important grimoires such as the Picatrix, Sepher Raxiel: Liber Salomonis, and The Book of Oberon. Could cannabis be the Holy Grail? With detailed historical references, the author explores the allegations the Templars were influenced by the hashish ingesting Assassins of medieval Islam, and that myths of the Grail are derived from the Persian traditions around the sacred beverage known as haoma, which was a preparation of cannabis, opium and other drugs. Many of the works discussed, have never been translated into English, or published in centuries. The unparalleled research in this volume makes it a potential perennial classic on the subjects of both medieval and renaissance history of cannabis, as well as the role of plants in the magical and occult traditions.

Vary was once a promising science student who dreamed of finding a cure for cancer; this exposé is her account of how she strayed from a path of mainstream scholarship at the University of Florida to a life of espionage in New Orleans with Lee Harvey Oswald. In her narrative she offers documentation on how she came to be a cancer expert at such a young age, the personalities who urged her to relocate to New Orleans, and what led to her involvement in the development of a biological weapon that Oswald was to smuggle into Cuba to eliminate Fidel Castro. Details on what she knew of Kennedy's impending assassination, her conversations with Oswald as late as two days before the killing, and her belief that Oswald was a deep-cover intelligence agent who was framed for an assassination he was actually trying to prevent, are revealed.

## **Most Dangerous**

### **A True Story**

Sherwood Kent, Kris Millegan

Out of the bowels of the sleepy southern town of Tupelo, Mississippi, the birthplace of Elvis Presley, emerges a darkly-humorous true story of staged terror, occult ritual and mind control. The book reads like a Faulkneresque tall tale but is, unfortunately for the main character and those around him, all-too-true. The author finds himself caught up in the middle of something bigger and uglier than he can at first fathom. Yet, much to his dismay, he catches on rather quickly to what's taking place around him - and near-simultaneously elsewhere across the county - because he's seen this sort of thing before. He wrote the book on it, literally, and he soon realizes just how much danger he is in. The year is 2013, the 50th anniversary of the JFK assassination, and Bain discovers that he is enmeshed in a series of scripted events meticulously planned and brilliantly executed by some of the most ruthless, powerful psychopaths on the planet.

### **Inside the Secret U.S.-Israeli Arms Network**

Ari Ben-Menashe

In this seminal work originally published in 1992, an insider account from the man who paid off the Iranians for the American hostages. Ari Ben-Menashe spent more than a decade in the innermost circles of Israeli intelligence. He was privy to the secret negotiations with the Iranians to delay the release of the American hostages until after the election of Ronald Reagan, he enlisted Robert Gates in the transfer of the \$52 million payoff to Iran, and was Robert Maxwell's handler. Ben-Menashe brokered secret Israeli arms sales on four continents and briefed George Bush on the vast arms network. He saw Israel's own nuclear arsenal develop, and watched his masters sponsor monstrous terrorist acts in the name of a higher good. Then, as he questioned the immorality around him, he was cut off and set up. This is the full story of the man who oversaw the accumulation of hundreds of millions of dollars in CIA and Israeli intelligence slush funds.

## **Prosecution for Treason**

### **Weather War, Epidemics, Mind Control, and the Surrender of Sovereignty**

Mary Maxwell

The Constitution defines treason as levying war against the United States, by persons who hold allegiance to the US, in other words all Americans. This author argues that violence committed against citizens by anyone who wages weather warfare (she assumes Hurricane Katrina is an example) or who sets epidemics in motion (by laboratory-created diseases such as AIDS) should be prosecuted for the crime of treason. As for the violent MK-Ultra techniques, to which thousands of children were subjected, and which Congress revealed in 1975, how is it that all the perpetrators escaped punishment? They would be properly designated not as Dr Strangelove's but as traitors. The law is clear on this.

## **Radical Peace Refusing War**

William T Hathaway

This symphony of voices--a loosely united network of war resisters, deserters, and peace activists in Afghanistan, Europe, Iraq, and North America--vividly recounts the actions they have personally taken to end war and create a peaceful society. Frustrated, angered, and even saddened by the juggernaut of aggression that creates more counter-violence at every turn, this assortment of contributors has moved beyond demonstrations and petitions into direct, often radical actions in defiance of the government's laws to impede its capacity to wage war. Among the stories cited are those of a European peace group that assisted a soldier in escaping from military detention and then deserting; a U.S.-educated Iraqi who now works in Iran developing cheaper and smaller heat-seeking missiles to shoot down U.S. aircraft after U.S. soldiers brutalized his family; a granny for peace who found young allies in her struggle against military recruiting; a seminary student who, having been roughed up by U.S. military at a peace demonstration, became a military chaplain and subverts from within; and a man who expresses his resistance through the destruction of government property--most often by burning military vehicles.

One of the most explosive and hidden secrets in U.S. history -- one that has never been previously told, this book explores how a sitting U.S. president collaborated with Israeli leaders in the fomentation of a war between them and their Arab neighbors. A war that would ensure a victory for Israel, and include the acquisition of additional land. This book will finally identify the real cause of the vicious attack on a U.S. Naval ship. After the botched plan was executed, the ship refused to sink even after being hit by a torpedo, leading the attack to be cancelled and a massive cover-up invoked. Including severe threats for the crewmembers to "keep their lips sealed". That cover-up is barely still in place, and completely exposed. Written largely by the survivors themselves, the truth is finally being told with the real story revealed.

### **The Assassination of Princess Diana and the Ancient Royal Cult of Human Sacrifice**

Was Princess Diana murdered? Yes, she was. That part is easily seen -- even the means are known. She was gravely injured in a deliberate car wreck that immediately killed two other people, and she was then allowed to slowly bleed to death from internal injuries. But why? And to what end? She stirs up our passions even today -- but she will never die. Not really. She has joined the Pantheon. Diana began life as we all do -- but then, she revealed herself in her goddess form, and the world responded. And we still respond, even though she has returned to the place where there is no time, and even though we no longer see her moving amongst us. She was a bridge figure, both human and divine. We have met such figures before, through all the ages -- gods and goddesses, saints and saviors -- and their fate has always been the same. They have always been killed. But by whom? And to what purpose? Royal Vengeance answers all these questions and more.

## **Ruthless Ambition** **The Rise & Fall of Chris Christie**

Louis Michael Manzo

How could a man like Chris Christie get within shouting distance of a seat in the Oval Office? What does this say about our Justice system, and about us? If you think you know the whole story of Christie's rise and later fall from grace-think again. In his searing tell-all, *Ruthless Ambition: The Rise and Fall of Chris Christie*, former New Jersey State Assemblyman Louis Manzo recounts an extraordinary tale of political ruthlessness, corruption, and greed while also telling the story of how he was caught in the center of one of the most egregious political scandals in modern-day history: the Bid Rig III sting operation, masterminded by the then United States Attorney for the District of New Jersey and soon-to-be Governor Chris Christie. Manzo shows us how the blind ambitions of Christie and his staff centred on capturing a governorship and the patronage jobs that accompany it, then parlaying that office into a shot at the presidency. Meticulous in backing up everything he says with objective legal documentation, Manzo makes a convincing and disconcerting case for the governor as an unbridled and sinister political figure who made the most of a seriously flawed Department of Justice and overall judicial system to feed his megalomania and desire for power. This book is a must-read for anyone interested in justice and ethical leadership. It can't happen here? Well, it almost did. Soon you will know why. Philosopher George Santayana said, "Those who cannot remember the past are condemned to repeat it." Substitute "understand history" and you can appreciate how Manzo's courageous true tale is poised to help all of us better understand the seemingly incomprehensible.

## **School World Order** **Skull and Bones, Technocracy, and the Corporate Globalization of Education**

John Adam Klyczek

For more than twenty years, Charlotte Thomson Iserbyt has been warning the American people of the New World Order stratagem to overthrow democratically elected school boards with public-private partnerships between the federal government and globalist corporations. In this volume, John Klyczek expounds on Iserbyt's theories by tracing her work to the present moment as a last ditch effort to stop the corporatization of education. Klyczek explores how the infamous Yale Secret Society, Skull and Bones, utilized Robber Baron philanthropy and stimulus-response psychological conditioning to institute a corporatist system of workforce training for a fascistically planned economy. He then explains how this system is being upgraded to a technocratic education system of corporatist "school choice" through virtual education technologies that program students for a globally planned economy.

## **See No Evil** **The JFK Assassination and the U.S. Media**

Jim DeBrosse

After more than fifty years of new evidence and new theories, the Warren Commission's claim that Lee Harvey Oswald acted alone and without clear motive in assassinating John F. Kennedy, has become a wheezing jalopy running on missing and broken parts and fueled with lies. And yet the U.S. media continue to support its findings as the only "factual" explanation for the murder of JFK. Why does the media marginalize and even ridicule more plausible conspiracy theories when the majority of American people long ago wrote off the Warren Report as a cover-up? *See No Evil* analyzes the built-in biases of the U.S. corporate media, exposes its complicity in the whitewashing, and advocates for the broadest possible investigation into the key players who may have been responsible for the Crime of the Twentieth Century, including the CIA, Organized Crime, and Israel. This book is meant for readers who seek the truth no matter where it leads.

## **Self-Portrait of a Scoundrel**

Chauncey Holt

Released for the first time 16 years after his death, this startling autobiography by one of the so-called "three tramps" from the John F. Kennedy assassination reveals the details of Chauncey Marvin Holt's many claims. Much mystery and suspicion still swirls around that fateful day in November 1963, and theories abound in nearly every form of media. But one of the major mysteries revolves around the three men spotted and later arrested in Dealey Plaza. Holt's controversial confession to being one of the three tramps has a history of its own, and in his own words he delves into his unique and wild background and life. From his United States Air Force service during Pearl Harbor to his associations with the mob and the CIA, Holt discusses his experiences and encounters in great detail. From a man who truly lived a rare and unique life, the book explains the ins and outs of his associations with Lee Harvey Oswald and the assassination in this unique retrospective of a complex and occasionally dubious life.

### **Studies in the Dark Side of Asian America**

Darrell Y Hamamoto

Forcing a fundamental rethinking of the Asian American elite, many of whom have attained top positions in business, government, academia, sciences, and the arts, this book will be certain to generate a good deal of controversy and honest discussion regarding the role Asian Americans will play in the new century as China and India loom ever larger in the world economic system. Not since the large-scale infusion of scientists and engineers fleeing Nazi Germany has there been such a mass importation of intellectual labor from U.S. client states in Asia. One of the specialized tasks assigned to this group is to build the technetronic infrastructure for the new world order command and control system. Not intended to fan the flames of suspicion and paranoia aimed at Asian Americans, but to serve to illuminate the way in which highly trained knowledge workers are being employed to bring sovereign nations such as the United States under centralized rule.

## **Shamanic Graffiti**

### **100,000 Years of Drugs, 100 Years of Prohibition**

Frank Ogden, Marcus Rummery

Freud said dreams were the "royal road" to the unconscious, and then along came a superhighway: psychedelics. Personally, we can access the psychedelic experience, but Frank Ogden shepherded over a thousand people's experiences. What is presented is the howling unconscious released from the normal chemical constraints that restrict it. Written in the simple, but vivid style Frank popularised in his bestselling, *The Last Book You'll Ever Read*, *Shamanic Graffiti* presents an alternative history of the brain and it's functions: shamanism. Giving real world examples, the book finishes-up by exploring the theories of two pre-eminent psychedelic theoreticians, Dr Timothy Leary and Dr Stan Grof and looks at the future of psychedelic drugs.

### **Sinister Forces – Book One: The Nine** **A Grimoire of American Political Witchcraft**

Peter Levenda, Jim Hougan

The roots of coincidence and conspiracy in American politics, crime, and culture are examined, exposing new connections between religion, political conspiracy, and occultism. Based on the premise that there is a satanic undercurrent to American affairs, this study examines the sinister forces at work throughout history, from ancient American civilizations and the mysterious mound-builder culture to the Salem witch trials, the birth of Mormonism during a ritual of ceremonial magic by Joseph Smith Jr., and Operations Paperclip and Bluebird. Not a work of speculative history, this exposé is founded on primary source material and historical documents. Fascinating details are revealed, including the bizarre world of "wandering bishops" who appear throughout the Kennedy assassinations; a CIA mind-control program run amok in the United U.S. and Canada; a famous American spiritual leader who had ties to Lee Harvey Oswald in the weeks and months leading up to the assassination of President Kennedy; and the "Manson secret."

## **Survivor's Guilt**

### **The Secret Service and the Failure to Protect President Kennedy**

Vincent Palamara

Painstakingly researched by an authority on the history of the Secret Service and based on primary, firsthand accounts from more than 80 former agents, White House aides, and family members, this is the definitive account of what went wrong with John F. Kennedy's security detail on the day he was assassinated. The work provides a detailed look at how JFK could and should have been protected and debunks numerous fraudulent notions that persist about the day in question, including that JFK ordered agents off the rear of his limousine; demanded the removal of the bubble top that covered the vehicle; and was difficult to protect and somehow, directly or indirectly, made his own tragic death easier for an assassin or assassins. This book also thoroughly investigates the threats on the president's life before traveling to Texas; the presence of unauthorized Secret Service agents in Dealey Plaza, the site of the assassination; the failure of the Secret Service in monitoring and securing the surrounding buildings, overhangs, and rooftops; and the surprising conspiratorial beliefs of several former agents. An important addition to the canon of works on JFK and his assassination, this study sheds light on the gross negligence and, in some cases, seeming culpability, of those sworn to protect the president.

## **Tavistock Institute**

### **Social Engineering the Masses**

Daniel Estulin

The real story behind the Tavistock Institute and its network, from a popular conspiracy expert The Tavistock Institute, in Sussex, England, describes itself as a nonprofit charity that applies social science to contemporary issues and problems. But this book posits that it is the world's center for mass brainwashing and social engineering activities. It grew from a somewhat crude beginning at Wellington House into a sophisticated organization that was to shape the destiny of the entire planet, and in the process, change the paradigm of modern society. In this eye-opening work, both the Tavistock network and the methods of brainwashing and psychological warfare are uncovered. With connections to U.S. research institutes, think tanks, and the drug industry, the Tavistock has a large reach, and Tavistock Institute attempts to show that the conspiracy is real, who is behind it, what its final long term objectives are, and how we the people can stop them.

## **The 15 Ounce Pound**

### **Big Pharma's Plan to Patent Pot**

Joseph R Pietri

In the United States, cannabis is currently illegal, but this book investigates how big pharmaceutical companies are looking at an end-game of legality--controlled by them. It examines how the Amsterdam scene has been transformed; how home growers have been manipulated into using inferior techniques; and how companies, with help from the Drug Enforcement Agency (DEA) and "big pharma," are patenting cannabis strains for control and profit. The leadership of the cannabis industry want to legalize marijuana with taxation and regulation, but the pharmaceutical industry cannot take over medical cannabis without first shutting down the scene today. The book predicts that legalized production will be tightly controlled by major players, using the IRS and DEA as a means of removing other growers. Regulation will also control the amount of tetrahydrocannabinol (THC) in each marijuana cigarette, forcing stronger cannabis to be available to medical patients by prescription only. A black market will still exist, so people will still go to jail, and the drug war will go on. With history and explosive, behind-the-scenes looks at big pharma collusion, this book is both an exposé and an in-depth look at the arc of freedom and probable control through use of pharmaceutical patents for marijuana.

## **The 9/11 Mystery Plane And the Vanishing of America**

Mark H Gaffney, Dr David Ray Griffin

Unlike other accounts of the historic attacks on 9/11, this discussion surveys the role of the world's most advanced military command and control plane, the E-4B, in the day's events and proposes that the horrific incidents were the work of a covert operation staged within elements of the U.S. military and the intelligence community. Presenting hard evidence in the form of proprietary photos taken from raw footage filmed by CNN, the account places the world's most advanced electronics platform circling over the White House at approximately the time of the Pentagon attack. The argument offers an analysis of the new evidence within the context of the events and shows that it is irreconcilable with the official 9/11 narrative.

## **The Art of The Lie From Satan to Trump**

Rick Cusick

Lies have always been told and retold, but over the last several years, owing to the proliferation of fake news, the advent of a sharp-elbowed social media, and the improbable arrival of 45th U.S. President, The Art of The Lie is enjoying a renaissance at the expense of The Truth. Despite erudite studies on lying and paranoid self-help tomes that teach you to recognise the smallest fib, tweet-weary pundits lament the loss of a more civilised discourse (as if that ever existed) -- shocked that these low words should resonate in such a high place. But here's a truth: You're never going to understand The Art of the Deal until you understand The Art of The Lie. Written by a former teenage con-man turned activist businessman, this book follows the unlikely election of Donald Trump and the author's own singular con-man confessions, unpacking the many types of lies and showing how they've been applied throughout history -- from the Garden of Eden to Wonder Woman to the wacky gang at the CIA. The book also recalls the breathtaking stories of the great (and ingrate) liars who somehow managed to change the world (sometimes even for the better) and finally reveals the surprising blunt mechanics of managing untruth. The book maps out the full landscape of liars and lies, using it to better understand Trump's rise to power on his savage, savant-like skill of speaking bald-faced lies without consequence.

## **The Autistic Holocaust The Reason Our Children Keep Getting Sick**

Jon E Mica

Stressing that autism is a major public health crisis of unequalled proportions, this book accuses the federal government of refusing to acknowledge it as such and having a corrupt and morally unsound relationship with "Big Pharma." First noting the dramatic rise in cases of autism in the United States since the 1970s, Autistic Indifference then discusses the rampant misuse and dangers associated with vaccinations. Additionally, the book argues that the Center for Disease Control has lied to the American public by presenting inaccurate data on annual flu deaths and, along with the Vaccine Safety Datalink, has buried damaging research on the perils of vaccines. Written by a parent of a child suffering from autism, this book is a must-read for anyone concerned with the neurological brain disorder.

## **The Bridge of the Gods** **A Romance of Indian Oregon**

Frederic Homer Balch

An amalgamation of fact and legend that creates a portrait of rural Native American life in the 19th century. First published in 1890, *The Bridge of the Gods* is a tale of the American Indians of the Northwest. Frederic Homer Balch describes missionaries attempting to convert Native Americans to Christianity, warring tribes who try to form an alliance to drive out the white settlers, and Native American legends of how the land—its mountains and rivers—came to be. Throughout his brief life, Balch observed and interviewed the American Indians in his native Oregon. More than a compilation of stories, Balch's classic work is a portrait of the Northwest tribes: their food, dress, shelters, canoes, gambling games, religious beliefs, and the sports and pastimes of their children.

## **The Deceit of Rome** **The Roman Catholic Church, an Invented Institution Based on Lies, Intrigues and Malpractice**

Maurits Prins

This no-holds-barred volume confirms the feelings of those who have always known something about the church just isn't right. Centuries of corruption continue even with the current pope, under whom many wealthy cardinals are enjoying incomprehensible luxury. Take top cardinal Tarcisio Bertone, for example, who recently spent & 200.000 Euros from a children's charity fund on the renovation of his luxurious penthouse apartment. Of course Bertone denies everything, but it's curious to see how often the Vatican's number two has been linked to financial fraud by the Italian Justice Department. According to Italian journalists Emiliano Fittipaldi and Gianluigi Nuzzi, millions of euros meant for charity are supposed to have been "stuck" within the administration and bureaucracy of the Roman Curia. Their sources are leaked Vatican documents, and the two people who have supposedly leaked these documents have since been arrested. These are a Spanish Opus Dei priest and a curious Italian woman, thought to be a mistress of one of the cardinals. I'm sure the pope means well, but he obviously isn't in control of the Curia of Cardinals.

## **The Great Heroin Coup** **Drugs, Intelligence & International Fascism**

Henrik Krüger, Jerry Meldon, Peter Dale Scott

In this new edition of a cult classic, Henrik Krüger and Jerry Meldon have added new material and provided updates of the investigations. Danish investigative author Henrik Krüger set out to write a book about Christian David, a French criminal with a colorful past, and wound up writing a book - originally published in 1980 - that spans all continents and names names all the way up to Richard Nixon. The Nixon administration and CIA wanted to eliminate the old French Connection and replace it with heroin from the Golden Triangle, partly in order to help finance operations in Southeast Asia. The book delves into the relationships between French and U.S. intelligence services and organized crime probing into the netherworld of narcotics, espionage, and international terrorism. It uncovers the alliances between the Mafia, right-wing extremists, neo-fascist OAS and SAC veterans in France, and Miami-based Cuban exiles. It lifts the veil on the global networks of parafascist terrorists who so frequently plot and murder with impunity, thanks to their relationships and services to the intelligence agencies of the so-called "free world." In short, this updated edition tells a story which our own media have systematically failed to tell.

## **The King of Nepal Life Before the Drug Wars**

Joseph R Pietri

From the halcyon days of easily accessible drugs to years of government intervention and a surging black market, this tale chronicles a former drug smuggler's 50-year career in the drug trade, its evolution into a multibillion-dollar business, and the characters he met along the way. The journey begins with the infamous Hippie Hash trail that led from London and Amsterdam overland to Nepal where, prior to the early 1970s, hashish was legal and smoked freely in Nepal, India, Afghanistan, and Laos; marijuana and opium were sold openly in Hindu temples in India and much of Asia; and cannabis was widely cultivated in Nepal and Afghanistan for use in food, medicine, and cloth. In documenting the stark contrasts of the ensuing years, the narrative examines the impact of the financial incentives awarded by international institutions such as the U.S. government to outlaw the cultivation of cannabis in Nepal and Afghanistan and to make hashish and opium illegal in Turkey -- the demise of the U.S. "good old boy" dope network, the eruption of a violent criminal society, and the birth of a global black market for hard drugs--as well as the schemes smugglers employed to get around customs agents and various regulations.

## **The Oil Card**

### **Global Economic Warfare in the 21st Century**

James R Norman

Challenging the conventional wisdom surrounding high oil prices, this compelling argument sheds an entirely new light on free-market industry fundamentals. By deciphering past, present, and future geopolitical events, it makes the case that oil pricing and availability have a long history of being employed as economic weapons by the United States. Despite ample world supplies and reserves, high prices are now being used to try to rein in China—a reverse of the low-price strategy used in the 1980s to deprive the Soviets of hard currency. Far from conspiracy theory, the debate notes how the U.S. has previously used the oil majors, the Saudis, and market intervention to move markets—and shows how this is happening again. This compact and unorthodox analysis will appeal to a broad audience—from energy consumers puzzled by intractably high oil prices to producers wondering how long windfall prices can defy gravity.

## **The Secret of the Three Bullets**

### **How New Nuclear Weapons Are Back on Battlefields**

Maurizio Torrealta, Emilio Del Giudice

Four journalists found themselves traveling around the world with the aim of finding answers to some questions: Why was valid research into room-temperature fusion deliberately ignored? Why was enriched uranium found in a crater caused by a bomb in Khiam, Southern Lebanon? Why do depleted uranium bullets produce a temperature of 4000°C? Why are there traces of other radioactive elements in those bullets? How do the new bombs dropped on Gaza work, bombs that are able to amputate people's legs while leaving no trace of metal fragments? The answers to these questions are linked to one another by a secret that has been kept hidden for more than 20 years: a discovery of a process in physics that has enabled the production of nuclear bombs the size of a bullet. Based on facts, The Secret of the Three Bullets is a scientific spy story that tells in fiction the reality behind cold fusion and its use on the battlefield today.

## The Siege Of Heaven

### How Breaking the Grip of Oligarchy Will Unleash the World's Human Potential

Tony Gosling

Some say the arrival of the internet has made it impossible for governments and corporations to keep secrets from or otherwise bamboozle the public, but the truth is just the opposite. As the ownership of the mainstream media consolidates, so the new media barons have a much tighter grip on what is published, while journalists are removed ever further from the process. Tony Gosling worked as a reporter for the BBC and saw these changes taking place within the corporation, witnessing the organization turn from a positive force into a mouthpiece of an increasingly corrupt state and the tiny elite group that has controlled humanity for centuries. Never before seen in print, these articles reveal the hidden wiring of the Western Establishment. They point to the elusive positive side of what Tony sees as an inevitable, orchestrated WWII and economic collapse. Each one offers, too, a vision of social justice where people and communities can properly fulfill their potential. Tony includes many reference articles, including a hidden history chronology from the dawn of time and into the future. In the spirit of the short-lived 60s and 70s cultural freedom, drawing on Hendrix's "All Along The Watchtower" for inspiration, this volume is an accessible "idiots guide" for the cataclysms to come.

## The Three Barons

### The Organizational Chart of the JFK assassination

James W Lateer

The Three Barons proves that it is possible (with enough research), to reconstruct the organizational chart of the JFK plot. This book provides the first useful, in-depth analysis of the 120 phone calls by LBJ in the week following the assassination regarding such items as the Civil Rights Act, demands made by the military and similar political power plays. The Three Barons presents the first use of statistical factor analysis to identify the plotters, using a database of 30 books and 1500 names and examines the military officers allegedly close to the plot, such as NATO Commander Gen. Lyman Lemnitzer, General Lauris Norstad, and JFK's advisor, Gen. Maxwell Taylor. For the first time, the National Security Council, its structure and its members, are scrutinized for their obvious role in the JFK plot. More specifically, The Three Barons explains the role of Treasury Secretary C. Douglas Dillon and his father, investment banker Clarence Dillon, who likely had fascist sympathies. This book identifies, for the first time, why there were three actual barons involved in the plot and why at least three members of the Warren Commission had powerful Nazi connections, beginning in WWII and continuing through November 22, 1963.

## **TransEvolution**

### **The Coming Age of Human Deconstruction**

Daniel Estulin

Arguing that the race to better humankind is about to go to a new dimension as a result of a nanotechnological revolution, this enthralling read purports that the depth of progress and technological development is such that people in the very near future may no longer be fully human. TransEvolution discusses the transition from human to someone--or something--new and different and the increasing trend of implementing prosthetics, organ implants, bionic eyes, hearing aids, and other technological augmentations. Humans are capable of doing things they never imagined would be possible 20 years ago, and the rapid growth of this trend is nowhere near its end. But do the benefits of these advancements come with a price? Is humanity in danger because of this domination of science and technology? Bestselling author Estulin describes his vision of the future in which he believes the elite will employ their Promethean plans.

## **Vietnam Reconsidered**

### **The War, the Times, and Why They Matter**

John Ketwig

Very few of the many books about the Vietnam War fully address why the fighting was conducted in such a cruel manner, why it was prolonged far past its logical end, or what, ultimately, went wrong. American literature has been reluctant to emphasize the fact that between 3.5 and 5 million Southeast Asians died -- many of them peasants -- that the majority of the bombs dropped from American planes landed on South Vietnam -- our ally and an impoverished agricultural society -- or that the use of napalm and Agent Orange was, in reality, chemical warfare. Americans have been reluctant to acknowledge the damage done, but after 17 years of another, very similar conflict in Afghanistan, many Americans are beginning to wonder why our highly financed and supported military isn't more effective. This book strongly suggests that the lessons of Vietnam are relevant and worthy of being reconsidered as today's wars are debated.
